

WPC Outdoor Furniture - Comfortable, Safe & Durable

Are you looking for a seating solution for your open space, park or recreational area ?

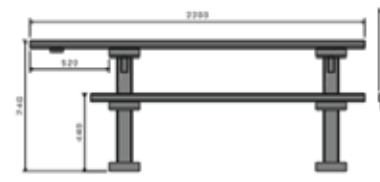

Advanced Plastic Recycling (APR) **Australian made** wood plastic composite (WPC) outdoor furniture range is the perfect choice for anywhere outdoor seating is required. **Made entirely from local recycled materials** (kerbside plastic and post-industrial wood waste), WPC offers a **sustainable timber alternative** that not only looks great, also lasts longer and is better for the environment.

Unlike timber, WPC will not rot, crack, splinter or get attacked by termites; perfect for safe public use in hard wearing environments. The smooth surface is **easy to clean** allowing for fast graffiti removal. WPC requires **minimal upkeep** and **no ongoing maintenance costs**.
